## **BREEDING CONTRACT 2010-2011 Season** **Natural Service & Fresh Semen**

**BAMBOROUGH PARAMOUNT** – Welsh B, App RP, ASP, APSB, Palomino

This Agreement made between: \_\_\_\_\_ herein known as 'the breeder' and Nicolette Jones-Ryan known as 'the stallion owner'. It is hereby agreed as follows:

1. The breeder agrees to pay the service fee of \$880 per mare for Bamborough Paramount. Of that amount a \$250 non-refundable handling/booking fee shall be due with this contract. The unpaid balance is due on a positive 45 day pregnancy test. A 45 day pregnancy test shall be performed within 52 days of the last date of service.
2. The breeder is guaranteed one live foal (or natural twins resulting from the one mare); if the mare proves to be barren, aborts her foal or if the foal is still born the breeder has the right to return the mare during the current or next season only. A live foal is defined as a new born foal that will stand and nurse unassisted and survive for two days with death occurring by natural causes. A Veterinary Certificate must be supplied should a Return Service be required. Should the mare die or be unsuitable for re-breeding a substitute mare will be accepted. A handling fee of \$250 plus agistment and veterinary fees will be charged for the returning mare or her substitute. If no other mare is available, the service fee (less booking/handling fee) will be refunded to the breeder and the parties to this agreement will be released from any further rights, obligations and liabilities. Should the stallion die or otherwise be unavailable for use if a Return Service is required, the breeder shall have the option to use any other stallion the stallion owner has available either in the current or following stud season.
3. All Veterinary expenses will be borne by the breeder. The Veterinarian will send the account directly to the breeder. The stallion owner reserves the right to obtain emergency veterinary care for the said mare without the permission or consent of the breeder.
4. The stallion owner will issue service certificates for the foal conceived by this mating after all service and related fees have been paid to the stallion owner and the Veterinary Surgeon. The stallion owner will lodge stallion returns and other required documentation to facilitate registration of the foal resulting from this service.

5. The stallion owner undertakes to take all due care of the mare whilst she is under her care but will accept no liability whatsoever for any loss, damage, illness or accident to the mare (and/or foal in utero or foal at foot) whilst at the stud. The breeder accepts the risk involved with any Veterinary examination or treatment prescribed to the mare.

6. All mares presented to stud must be in good general health, be clear of any uterine infections and be safe to handle.

7. Mares over 14.2 which are unable to be served naturally may be Artificially Inseminated on the property at the breeder's expense. The stallion owner may refuse to serve any mares that pose danger and risk of injury to either the stallion or handlers.

8. Agistment fee at the stallion owner's property of \$10 per day for dry mares up to 14hh. Agistment fee for dry mares over 14hh or mares with foals at foot to be negotiated, depending on requirements. Agistment is to be paid in full prior to departure from the stud.

9. If the breeder does not proceed with the booking, the booking/handling fee of \$250 will be retained by the stallion owner unless the mare which was booked in has died (Veterinary Certificate required). Should the stallion die or become unavailable for service before the mare has been served the booking fee will be refunded to the breeder.

I have read and fully understand and agree to abide by the terms and conditions of this contract.
